# ALIGNMENT SESSIONS

**Drifting off course? We'll pull you back.**

We focus on "Where are you really, and where are you supposed to be?"

## WHO IT'S FOR

- Business leaders
- Entrepreneurs
- Executive teams

Anyone ready to take a break from the day-to-day to target the important, not urgent, work and make sure your actions match the plan you agreed upon.

## GOAL OF AN ALIGNMENT SESSION

We help you re-focus on the stuff that helps you succeed. It's normal to drift and get caught up in the daily grind. Periodic check-ins are necessary, and that's why alignment sessions occur more often than [strategy days].

By the end, you'll feel more realigned and recommitted to your goals, and you'll walk away with a set of achievable action items that make sense.

## WHY THESE SESSIONS ARE EFFECTIVE

When these four aspects come together, you're destined for success:

Time away from the day-to-day

Someone outside the team asking the hard questions

A process to see if the truth matches the plan

Space to focus on the important stuff
